

Amendments to the Claims:

This listing of claims will replace all prior versions, and listing, of claims in the application.

Listing of Claims:

Claim 1 (amended) A chair accessory device for a chair having a seat portion comprising:

first and second tote bags, each bag including inner and outer panels;

a coupling panel having opposed first and second ends coupling the bags together,

the first end coupled with the inner panel of the first bag, and the second end

coupled with the inner panel of the second bag; and

~~bag attachment structure for selectively securing the first and second bags in close~~

~~proximity to each other~~ a securing strap assembly positioned beneath the

coupling panel and spanning substantially between the first and second

coupling panel ends for securing the accessory device to the chair.

Claim 2 (amended) The device as set forth in claim 1, further including bag attachment structure for selectively securing the first and second bags in close proximity to each other, wherein the bag attachment structure includes including hook material fastened to the inside panel of one of the first and second bags and loop material fastened to the inside panel of the other of the first and second bags.

Claim 3 (amended) The device as set forth in claim 1, wherein the ~~bag attachment structure includes hook material fastened to one of the first and second ends of the coupling panel, and loop material fastened to the other of the first and second ends~~ securing strap assembly includes a strap having opposed ends and a clasp positioned at one of the ends of the strap permitting the coupling panel to be placed in a position on top of the seat of the chair and the strap to be placed underneath the seat of the chair.

Claim 4 (original) The device as set forth in claim 1, the first bag further including a first shoulder strap attached thereto, and the second bag further including a second shoulder strap attached thereto.

Claim 5 (canceled)

Claim 6 (canceled)

Claim 7 (original) The device as set forth in claim 1, the device further including a first handle attached to the first bag, and a second handle attached to the second bag.

Claim 8 (original) The device as set forth in claim 7, the device further including handle attaching structure for selectively attaching the first and second handles to each other.

Claim 9 (original) The device as set forth in claim 8, wherein the handle attaching structure includes hook material fastened to one of the first and second handles, and loop material fastened to the other of the first and second handles.

Claim 10 (amended) A chair accessory device comprising:
first and second tote bags, each bag including inner and outer panels;
a coupling panel having first and second ends for coupling the first and second bags together, the first end coupled with the inner panel of the first bag, and the second end coupled with the inner panel of the second bag; and
~~a first shoulder strap coupled with the first bag and a second shoulder strap coupled with the second bag~~ attachment structure for selectively securing the first and second bags in close proximity to each other, the bag attachment structure including hook material fastened to the inside panel of one of the first and second bags and loop material fastened to the inside panel of the other of the first and second bags.

Claim 11 (canceled).

Claim 12 (canceled).

Claim 13 (canceled).

Claim 14 (original) The device as set forth in claim 10, the device further including a first shoulder strap coupled with the first bag and a second shoulder strap coupled with the second bag and strap attaching structure for selectively attaching the first and second straps to each other.

Claim 15 (original) The device as set forth in claim 14, wherein the strap attaching structure includes hook material fastened to one of the first and second straps, and loop material fastened to the other of the first and second straps.

Claim 16 (original) The device as set forth in claim 10, the device further including a first handle attached to the first bag, and a second handle attached to the second bag.

Claim 17 (original) The device as set forth in claim 16, the device further including handle attaching structure for selectively attaching the first and second handles to each other.

Claim 18 (original) The device as set forth in claim 17, wherein the handle attaching structure includes hook material fastened to one of the first and second handles, and loop material fastened to the other of the first and second handles.

Claim 19 (canceled).

Claim 20 (canceled).
